Basics of testing in Postman

Pre-Built Tests

Test Syntax

```
pm.test("Status code is 200", function () {
   pm.response.to.have.status(200);
});
```

```
pm.test("Status code is 200", function () {
   pm.response.to.have.status(200);
});
```

```
pm.test("Status code is 200", function () {
   pm.response.to.have.status(200);
});
```

```
pm.test("Status code is 200", function () {
   pm.response.to.have.status(200);
});
```

```
pm.test("Status code is 200", function () {
   pm.response.to.have.status(200);
});
```

```
pm.test("Status code is 200", function () {
    pm.response.to.have.status(200);
});
```
